### CONFLICT FREE POLICY

QMC is aware of its social mission, always keeps compliance and information disclosure, carries out the social responsibility through demonstrating its role. QMC is a part of the supply chain for the global Tin, Tantalum and Tungsten (3T) trade. It is the Company's policy that it will not knowingly purchase conflict minerals which directly or indirectly finance or benefit armed groups in the Democratic Republic of the Congo (DRC) or adjoining countries.

The Company recognizes the importance of due diligence of the 3T supply chain to avoid the purchase of minerals associated with conflict in DRC or adjoining countries.

Our main goal for 3T raw material supply is to avoid 3T materials that are suspected to have the origin of regions in conflict, and we comply and commit to the national and international laws and requirement from EICC policy and US Dodd Frank Act.
